Salary fund—John Strohm, A G rillo, R H Bagley, D A Fraser and Lawrence Burke \$25 each as road commissioners.

Petition of T. F. Johnson and Geo. Chisholm for free license for moving picture show, was granted for a period of five months from this date.

Petition of Louis Galli for liquor license was read and laid over until next meeting.

Petition of J. M. Haller to retail liquor at lone was granted.

Report of county physician, and criminal returns of Alfred Goldner and W. L. Rose were examined and approved.

A communication from the Trans-Mississippi Commercial Congress was read.

The school census report of superintendent W. H. Greenhalgh was read.

Agnes M. Raab and Alice E. Gartlin were appointed members of the board of education for the period of two years.

In regard to the appointment of a health officer for Amador county, it was moved and carried that said matter be reconsidered, and that the appointment be made at this time.

On motion, Dr. E. E. Endicott was appointed health officer of Amador county for one year, at a salary of \$40 per month, and no further expense be attached to said office.

The board then adjourned, for the purpose of meeting the board of supervisors of Calaveras county at San Andreas on Tuesday, June 8, in regard to the purchase of Big Bar bridge, and that the board reconvene at Jackson on Tuesday afternoon at 4 o'clock.

Changes in Amador County Post Offices.

The lone postmaster got an increase of \$100 in salary, and is now second office in the county in volume of business transacted, taking the place heretofore held by Sutter Creek. Jackson stands first, doing more than double the business of any other office. The lone office is increased from \$100 to \$200, and Sutter Creek lowered from \$1200 to \$1000.

Could not be Better

No one has ever made a salve, ointment, lotion or balm to compare with Bucklen's Arnica Salve. Its the one perfect healer of cuts, corns, burns, bruises, sores, scalds, boils, ulcers, eczema, salt rheum. For sore eyes, cold sores, chapped hands its supreme. Infalible for piles. Only 25c at Spagnoli's Drug Store.

Hospital Report.

The county physician made his monthly report to the supervisors at their last meeting as follows:

Admitted—Lapes Trinidad, native of California, liver complaint; Ellen Tucker, New York, operation; Frank Capp, California, insane; A. Cornell, Kentucky, general debility; Finerty, Ireland, general debility; John Reardon, New York, general debility; D. Gazzera, Italy, court order; Judge King, Tennessee, alcoholism; A. Frediani, Italy, urethritis; John Martin, general debility; C. Cavias, Mexico, general debility; Vorisinto, Greece, rheumatism.

Discharged—Tom Elliot, John Moon, Frank Capp, John Reardon, A. Frederick, Judge King, James Clemmons.

Number of patients at last report 37; number admitted during May 12; number discharged 7; number remaining June 1, 42.

There are many imitations of DeWitt's Carbolicized Witch Hazel Salve—DeWitt's is the original. Be sure you get DeWitt's Carbolicized Witch Hazel Salve when you ask for it. It is good for cuts, burns and bruises, and is especially good for piles. Sold by City Pharmacy, F. W. Risher, prop.

Criminal Returns.

Township No. 4, W. L. Rose, justice—Charge of misdemeanor by J. M. Bell against W. P. Deaver; plead guilty; fined \$15 and paid.

Charge of misdemeanor by L. Oneto against Daniel Maslin; plead guilty; fined \$30 or serve 60 days in the county jail and committed to the custody of the sheriff.

Township No. 1, A. Goldner, justice—Charge of insanity by Antonetti Gazzera against Domenico Gazzera. Warrant issued.

Charge of insanity by N. E. Wheeler against Frank E. Kapp. Warrant issued.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address, F. J. Cheney & Co., Toledo, O.

Sold by Druggists, 75c.

Hall's Family Pills are the best.

We will be pleased to have you call, and show you around.

The RED FRONT JACKSON'S ONE-PRICE STORE.

Chamber Of Commerce Meeting.

A meeting of the newly organized chamber of commerce was held in the superior court room on Monday afternoon for the purpose of receiving the report of the committee on by-laws and other business.

There was a good attendance. C. P. Vicini presided, and secretary W. H. Greenhalgh was in his place. The committee on by-laws was called upon to report. Whereupon R. Webb as chairman read the by-laws as adopted by the committee. After which each section was taken up, and passed upon separately.

A protracted debate occurred over the adoption of the section relating to the election of officers by the board of directors. This was caused by the action taken at the preliminary meeting in electing permanent officers before any organization had been effected. There was no desire on the part of the committee or those present at the meeting to override that verdict. Some, however, contended that a proviso to that effect should be incorporated in the by-laws. This was resisted by others as unnecessary, and conflicting. After an hour or more of discussion a motion was finally put to a vote tacking this provision to the section. It was voted down, and the section was adopted as read. The entire report was adopted without further contention. The by-laws in full are published in another column.

Thereupon it was moved and carried that the members enrolled at the preliminary meeting be deemed members of the chamber of commerce, and that the dollar fee paid by each at that time be accepted in full payment of the dues for the ensuing quarter.

R. Webb moved that a committee of three be appointed by the chair to suggest seven persons to act as the board of directors for the ensuing year, and that the present president, secretary and treasurer be included in the seven names suggested. Carried unanimously.

This committee was named as follows: A. Ginochio, W. Lam, Dr. A. M. Gall, and are required to report to a meeting to be held next Monday afternoon, to which time the chamber thereupon adjourned.

Order To-day!

We can save you from \$5.00 to \$10.00 on a suit or overcoat if you order now. We want to keep busy (between seasons) while others are dull.

Come in and inspect some of the most popular styles.

GEO. RAYMOND,

The London Tailor.

Snailham Gets Two and a Half Years.

Thomas Snailham, who, by the confession of Domenico Manzo, was implicated in the attempted jail break last week, was captured in Sacramento, and brought back here by Sheriff Gregory on Friday evening. Snailham was not in Jackson at the time the attempt was made by Manzo to gain his liberty. He was liberated from custody a day or so previously, having served a sentence of 15 days for misdemeanor committed in the red light district about May 16. It is claimed by the confessor that Snailham furnished the scheme to break jail, and told where the implements used in breaking down the jail doors could be had. This of course, made him an accomplice, and equally guilty with Manzo, who did all the actual work toward gaining his freedom. He was charged with a felony in injuring the jail. On Saturday he was taken before the superior court for arraignment. In answer to questions by the judge he said he did not want an attorney, and pled guilty to the charge; and waived time in the passing of sentence. He said he was 28 years of age, and admitted that he had been arrested several times for minor offenses. He was sentenced to 30 months imprisonment in San Quentin.

Married in Oakland.

W. H. Willis, attorney-at-law and shorthand reporter of San Francisco, and Miss Pearl Freeman, were married on Thursday of last week at the residence of the bride's mother, Mrs M. Freeman, in Oakland. Both contracting parties are well known here, the bride being native of Jackson, and the groom having resided here for several years prior to 1902. The newly married couple will make their home in Oakland.

Sometimes you may be told that there are other things just as good as DeWitt's Kidney and Bladder Pills. That isn't so. Nothing made is as good as DeWitt's kidney and bladder pills for any ailments of the kidney or bladder, which always result in weak back, backache, rheumatic pains, rheumatism and urinary disorders. A trial of DeWitt's Kidney and Bladder Pills is sufficient to convince you how good they are. Send your name to E. C. DeWitt & Co., Chicago, for a free trial box. They are sold here by City Pharmacy, F. W. Risher, prop.

The biggest clubbing offer ever made—Amador Ledger and Bulletin—leading evening paper of San Francisco, only \$3.

DOCUMENTS RECORDED.

The following instruments have been filed for record in the recorder's office since our last report. We publish a complete list of documents recorded, and must decline to accede to any request to suppress any document from these columns. Don't ask us to do so.

Deeds—Helena M. Gregg to James F. Gregg, lots 3 and 4 block 27, Plymouth, love and affection.

Ezra Taylor to Amador county, right of way commencing near sections 4 and 9-7-10, \$1.

Ann Richards to Matilda Post, part of lot 10 block 14, Sutter Creek, \$10.

Jackson Dennis et al to M. T. Gorman, part of lot 8 block 22, Sutter Creek, \$10.

John W. Sitole to Martha E. Sibole, 195 acres in 16-6-10; the south half of block 32, lone; also lot 3 block 42, lone, love and affection.

Satisfaction of Mortgage—Cuneo to Zerga

Mortgage—Catterina Zerga to Begia Cuneo, lots part of lot 2, and lots 8 and 16, also 22½ acres known as Zerga's vineyard, Clinton, \$150 for one year with interest at the rate of 8 per cent per annum.

Decree—Decree of distribution in estate of Giovanni Lavezzo filed.

Order—Order filed assigning whole of estate of Joaquin S. Soares to widow.

Location—O. Olsen locates the E. L. placer claim in 32-7-13.

Trust Deed—John A. Canvin of Grillo Bros., 160 acres in 13-7-12, \$500.

Bathing in Zella Reservoir.

A man named George Brown, a stranger in this section, was arrested together with two town boys named Chris Slavich and E. Harris, on a charge of bathing in the Zella reservoir on Saturday last. It seems that the boys had invited the stranger to the reservoir to take a swim. He was ignorant that the water of this reservoir was used for domestic purposes, and that it was a misdemeanor to bathe therein. There was no intention of violating of the law on his part. They were taken before the city recorder, judge Thompson, on Monday. The case against Brown was dismissed, and passing of sentence against the two minors was suspended. It was thought necessary to do something for example's sake to protect the citizens against bathers in water which is used for drinking and other purposes.

Taxpayers Notice

Timber land will be assessed at \$5 per acre.

Give in your assessment by June 1st, so I can close the rolls.

Road and poll taxes due. Delinquent July 1st, after which it will be \$3 each.

CLARENCE E. JARVIS,

Assessor

By paying all arrears, and \$3 in advance Ledger subscribers can get Ledger and daily Bulletin for one year.

COUNTY HEALTH OFFICER.

At the meeting of the board of supervisors held last Monday, Dr. E. E. Endicott was appointed health officer of Amador county at a salary of \$40 per month. This action at this particular time is apt to be misunderstood. It is well known that no particular emergency in the sanitary conditions of the county demands such action. There is no epidemic of any contagious disease prevailing. Indeed, the county is as free from menace in this direction as at any time in its history. Under these circumstances the question will naturally be asked by the taxpayers, "Why do the supervisors impose this additional expense upon the people, when there appears to be no special occasion therefor." In explanation we may say that the supervisors are in no way responsible for this action. They are required under an amendment of the law passed by the legislature to appoint a county health officer. As the law stood before it was optional with them, but under the amended law it is made mandatory upon them. This matter was brought to the attention of the board of supervisors by a communication from Dr. Foster, president, of the state board of health, and the only thing they could do, without a wilful violation of the law on their part, was to make an appointment. This particular law as amended reads as follows:

The supervisors shall appoint in each county a health officer, who shall be deemed an employe and not a county officer, and whose duty it shall be to enforce and observe all orders and ordinances of the board of supervisors pertaining to health and sanitary matters, all orders, quarantine regulations and rules prescribed by the state board of health, and all statutes relating to the public health and to vital statistics. He shall give to the duties of his office such time and attention as may be necessary to secure general supervision of all matters pertaining to the health and sanitary conditions of the county, and when so required by the board of supervisors he shall give all of his time to such duties. He shall be a graduate of a medical college of good standing and repute, shall hold office for a term of one year, and shall receive for his services such sum as may be determined by the board of supervisors.

A COMPLIMENTARY NOTICE.

The Miners' Magazine, the organ of the Western Federation, published in Denver, in its issue of June 3d, devotes the greater part of a page to the Amador Ledger and its editor. The intent of this devotion is to lambast the editor for his views on the recent labor trouble growing out of the eight hour law. We are perfectly willing that the comments of the Magazine should stand without extended criticism on our part. We are not anxious for words of commendation from that source. The editorial says:

The mine operators have been successful in enforcing this interpretation of the law, and the Amador Ledger, the mouthpiece of the mine operators, is profuse in its praise of the employes of the Kennedy mine, who earned the title of "heroes" for their heroic service in breaking the strike.

When a subsidized, measly rag that is shackled to the interests of exploiters, deals out cheap flattery in laudation of men who aided the mine operators to add at least another half hour to the slaves in Amador County, and when such cheap tributes are appreciated by the men who have committed treason to themselves and the class to which they belong, it is conclusive evidence that a vast amount of educational work is needed in Amador County to clear the vision of men who are yet blind to the class struggle.

The Federation mouthpiece herein virtually admits that its mission is to array class against class. In other words to endeavor to prejudice the minds of the employes against their employers. This may be a noble mission according to the one-sided view of our contemporary, but to our mind it is one of the most detestable callings to which the human mind can be prostituted.

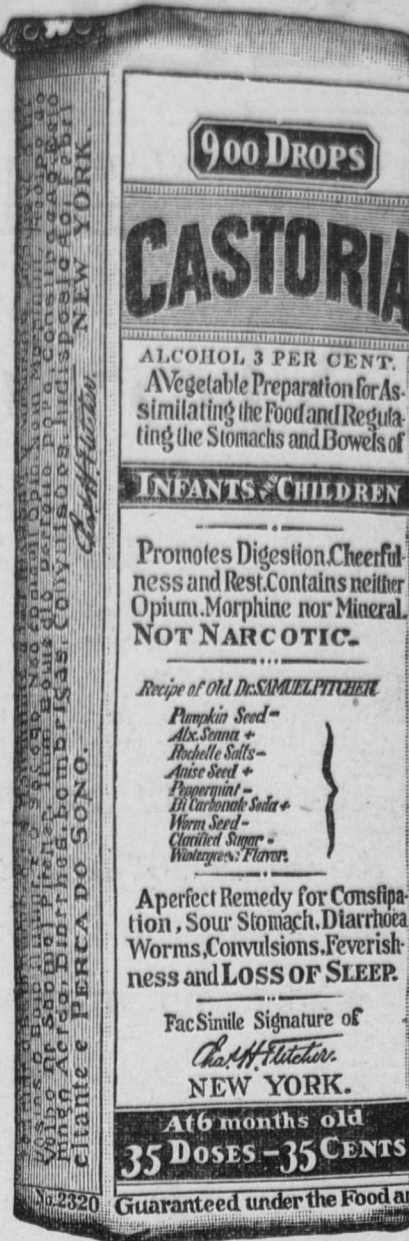

The statement that the operators have added "another half hour to the slaves in Amador county," is a wilful perversion of the truth. The men are in the mines on an average fully half an hour less time each day than formerly under the nine hour system. The truth is the Federation organ is the avowed enemy of the wage-paying and wage-earning system. Nothing short of the extinction of the relationship of employer and employe will meet its ideal—the dawn of the socialists' millenium. And that far-away degeneracy of intelligent beings to the level of the brute creation is hardly entitled to serious consideration.

No Need of Suffering from Rheumatism

It is a mistake to allow anyone to suffer from rheumatism, as the pain can always be relieved, and in most cases a cure effected by applying Chamberlain's Liniment. The relief from pain which it affords is alone worth many times its cost. It makes sleep and rest possible. Even in cases of long standing this liniment should be used on account of the relief which it affords. Do not be discouraged until you have given it a trial. For sale by Jackson Drug Store, Spagnoli's, prop.

For a Sprained Ankle

As usually treated, a sprained ankle will disable the injured person for a month or more, but by applying Chamberlain's Liniment and observing the directions with each bottle faithfully, a cure may be effected in many cases in less than one week's time. This liniment is a most remarkable preparation. Try it for a sprain or bruise, or when laid up with chronic or muscular rheumatism, and you are certain to be delighted with the prompt relief which it affords. For sale by Jackson Drug Store, Spagnoli's, prop.

DAILY BATH INJURIOUS.

Cherished Custom of Anglo-Saxon Race Knocked on the Head.
One of the most cherished traditions of the British race, the "cold tub every morning," is mercilessly criticised by Dr. J. H. Clarke of London in "Vital Economy; or, How to Conserve Your Strength," published recently.
Dr. Clarke contends that in the matter of health we are enslaved by words and phrases. "The pores of the skin" is a phrase at the shrine of which many feeble folk are sacrificing the last flicker of their energy in the daily morning tub. "Plenty of fresh air" is another tyrant which has claimed numberless victims.
"I once lost a good patient, who was always ailing, by cutting off his daily morning tub," says Dr. Clarke. "He grew strong and put on weight, and it is one of his delights to shock his friends by telling them how many years it is since he had a bath!"
"Too much soaping and scrubbing, according to Dr. Clarke, remove the lubricating material secreted in the glands of the skin to make it soft and supple, and the removal leaves the skin more sensitive to atmospheric changes.
The skin is a self cleansing organ. By soaking the body the self cleansing cells absorb water, swell up and die.
"One has only to rub oneself after a bath and they come off in little rolls. These do not consist of dirt, as is the popular idea, but of dead skin cells. I often tell people that it is quite possible for them to wash themselves dirty. They remove so much of the protecting surface that they give the dirt a real chance of getting into their skins."
Dr. Clarke recommends as a substitute for a bath a folded towel, wetted in the center and passed rapidly all over the body. This will "open the pores" sufficiently without entailing any shock.

WOMEN BUTCHERS.

An Unusual Feminine Occupation Followed in Paraguay.
The butchers in all parts of Paraguay are women. In the public slaughter houses the cattle are dispatched by men. This is the only part of the work done by men. The animal is skinned and otherwise prepared by women who are dexterous in the use of the saw and knife. It is served out to the customers by women—not generally by weight, but by the piece—and the price is very low.
Women of all ages act the part of butchers. Some are young and pretty, others old and wrinkled. The women are great bargainers and keen to pull a new arrival almost to pieces in the hope of securing his custom. These women butchers earn good wages, and many of those in business on their own account acquire modest fortunes.
The cause of this state of things is the heroic war waged by Paraguay more than thirty years ago against the overwhelming forces of Brazil, the Argentine Republic and Uruguay combined. This war, which lasted five years, bore many similar points of resemblance to the recent Boer war. It ended in the almost total annihilation of the able-bodied male population of the country.
When the war was over the people had been reduced to the most abject poverty and were on the verge of starvation. Worse still, owing to the destruction of the male population, perfect anarchy prevailed, and all the work formerly performed by males fell on the fair sex. They rebuilt the houses which had been burned down, tilled the fields and wove for themselves rough homespun clothing from the cotton grown in their own fields.

The Same Old Way.
Miss Madeline Edison, daughter of Thomas A. Edison, is said to be following in her father's footsteps as an inventor. For several years she has been his comrade in working out experiments in electricity. As her own invention she has put on the market an automobile map.

NEEDLEWORK NOTES.

Whenever possible, one should mend woolen clothing with the ravelings of the goods. This makes a much neater mend, and if neatly done the rent will be almost invisible.
When sewing a collar to a waist do not allow any fullness to occur across the back of the waist, unless the waist is designed for it. If the neck has stretched a little and is too large for the band let the fullness come from the front of the waist to a little in front of the shoulder seam.
For a handy needlebook a piece of blue satin ribbon eight inches long and two inches wide is pointed at each end and finished with a small blue silk tassel. It is then stitched to a second piece of ribbon the same size and sewed across to form three small needle pockets. Into the three pockets are thrust small papers of needles.
White cotton crape is a serviceable and pretty material for the house wrapper. It can be made rather fell if the fullness is supplied by having numerous tucks in the waist portion. The wrapper is made in an empire mode with the girdle placed below the bust line. Any dainty trimming in blue or pink would be pretty. An applique of apple green or apple green lace insertion would serve nicely for outlines. For a cheap wrapper select a pink flowered lawn and make it with short sleeves, finished at the elbow with bands. Plait the shoulders and have it double breasted and collarless. Outline the neck, waist front and front seam with a lace insertion. Tie at the waist with a pink silk ribbon.

JACKSON - - - CALIFORNIA

Descriptive Article

Amador county comprises an area of 548 square miles. It lies on the western slope of Sierra Nevada mountains, and embraces within its territory all the diversity of valley, foothill, and high mountainous lands.

Climate.—The climate of the populous portions of the county is as genial and healthful as can be found anywhere in California. As climate is one of the most valuable assets of this favored state in attracting population, Amador stands second to no county in this regard. It should, and no doubt will in time, when its climatic advantages are more thoroughly understood and appreciated, become a health resort not only for those in less favored states, but for the residents of other parts of California. The temperature alone the central portion rarely falls below 30 degrees above zero in winter, and as rarely rises to 100 degrees in the summer. Snow seldom falls in the settled districts, and never remains on the ground for more than a few hours. Of course, in the high mountain regions of eastern Amador the snowfall is very heavy—which is characteristic of the entire Sierra Nevada range. The summer season is always accompanied with cool nights; permitting of sound, refreshing slumber. Fogs are rare, cyclones are unknown, thunderstorms are infrequent.

Gold Mining.—The county, although rich in other sources of wealth, comparatively untouched, is noted principally for her quartz mines. The deepest gold mines in America are located here. The Kennedy mine is now taking gold in liberal quantities from quartz extracted from a depth of over 3000 feet below the surface, with every indication that the pay-ore extends to a much greater depth. Since the discovery of gold, the county has contributed fully \$100,000,000 to the world's supply of the precious metal. The mines are still yielding at the rate of about two million dollars annually. Nearly all of this wealth is produced by eight or ten mines operating on what is called the "mother lode," stretching clear across the county in a north-easterly direction a distance of twenty miles. The mines aggregate between 400 and 500 stamps, and furnish employment for over 1000 miners. This industry is still in its infancy. The unexplored territory, even along the main gold belt, is far in excess of the ground that has actually been worked or prospected. The county offers to-day one of the most inviting fields to be found anywhere in the world for the investment of capital in the fascinating business of gold mining, not alone along the mother lode, but also in the almost untouched mineralized country of the east belt, some ten or twelve miles from the main lode.

Besides gold, we have copper, deposits of pottery, coal, marble, slate, limestone, granite, and soapstone or talc—all undeveloped.

Agricultural Capabilities.—The agricultural possibilities equal, if not excel, the mineral riches. The valley lands will produce anything that can be grown in the most favored sections. In the foothill lands all kinds of deciduous fruits thrive: also all kinds of vegetable are raised where irrigation is practicable along the numerous water courses. Further up in the mountains, at an altitude of 2000 to 2500 feet, the soil is admirably adapted for apples and potatoes. A ready market for these commodities can be found in the various mining towns.

Grape culture and winemaking are becoming important industries, both the grapes and wine commanding a better price than the product of the lowland.

Land is cheap compared with other California lands. Improved farms may be secured for one-fourth the price current in some places. Unimproved lands can be had from \$5 to \$10 per acre. It does not require a fortune to buy a small ranch. There is room for a large addition to our agricultural population. Vast tracts now devoted to cattle ranges might be made the homes of hundreds of prosperous farmers.

Amador has a population of less than 12000. Three fourths of this is concentrated in a strip of three miles above and below the mineral belt.

Jackson, the county seat, has about 2500 inhabitants, and is an incorporated city of the sixth class. Other towns are Sutter Creek, Amador City, Drytown, Plymouth, Volcano, Pine Grove and Olea. Ione City is the metropolis of the valley section, a thriving town of 1000 inhabitants.

The community is law abiding. Educational facilities are excellent. A schoolhouse is within easy reach of nearly every family. There is one high school, located at Ione.

The assessment roll for 1907 is \$5,800,793, and the tax rate for both state and county purposes \$2 on the \$100.

The Southern Pacific has a branch railroad running to Ione. From this point the Ione and Eastern railroad extends 14 miles further to the mining section.

The various religious denominations and fraternal organizations are well represented.

The power plant of the Standard Electric Co.—one of the largest in the world—located four miles from Jackson.

BY-LAWS

Of Chamber of Commerce of City of Jackson and County of Amador.

Name and Purpose. Article 1.

The name of this association shall be Chamber of Commerce of City of Jackson and County of Amador.

The purposes for which it is formed are to foster, encourage and develop mining, mercantile, manufacturing, agricultural, viticultural and all other interests and resources of the city of Jackson and county of Amador, to collect, preserve and circulate useful information concerning said city and county to encourage wise and helpful legislation and oppose the enactment of all laws and the passage and adoption of all ordinances which might injuriously affect the best interests of said city and county, to forward the improvement of streets, roads, avenues and public parks, to widen and extend our transportation facilities, to aid and encourage the erection of needed public buildings, the establishment of new manufacturing and the advancement of local improvements. To maintain a permanent exhibit of the resource of the county. To aid in the storage of water for irrigation purposes, to increase the wealth, industries, influence, trade and population of said city and county and promote the general welfare of the inhabitants thereof.

Place of Business. Article 2.

The principal place of business of this association shall be in the city of Jackson, county of Amador, state of California.

The directors shall have power to select and designate such place of business in said city as they may deem proper.

Membership and Dues. Article 3.

Any person of good moral character, attached to the principles of the government of the United States of America, who will subscribe to the by-laws of this association, is eligible for membership, therein; quarterly dues shall be one dollar (\$1), payable on the first day of each quarter in advance, provided that if any member so desires he may pay annual dues in advance in the sum of \$4 dollars (\$4) and upon such payment he shall be entitled to a receipt in full for dues for one year. Three months arrears for dues shall be considered a suspension of membership and for this cause or any failure to comply with all the obligations imposed by subscription to the by-laws, any member may be suspended or expelled by a majority vote of the association. Quarterly dues shall be payable on the first day of July, October, January and April of each year.

Directors. Election and Powers. Article 4.

The powers of this association are conferred upon and shall be exercised by a board of seven (7) directors, who shall be elected by the association at each annual meeting, to hold office for one year from the time of their election or until their successors are elected and qualified.

The directors shall have the appointment of all special committees which may be necessary to carry on the work of this association. A majority of the board of directors shall constitute a quorum. Whenever any vacancy occurs in the office of director, such vacancy shall be filled by an appointee of the board to hold for the unexpired term.

Any director who shall for four successive regular meetings be absent without special leave granted by the board, shall cease to be a director and his office shall become ipso facto vacant.

Officers. Duties of Officer. Article 5. The officers of this association shall be a president, vice-president, secretary and treasurer.

Immediately after the adjournment of the annual meeting of this association, the directors elected at said meeting shall meet and organize by the election of a president, vice-president, treasurer and secretary, who shall be directors. The treasurer and secretary shall be required to give bonds for the faithful discharge of their respective duties, the amount of such bond to be fixed by the board of directors.

President.

The president shall preside at all meetings of the association and of the board of directors. In the absence of the president, the vice-president shall preside, or in the absence of both the president and vice-president, some member may be chosen to preside, and all the acts of such presiding officer or chairman shall have the same validity as if presided over or done by the president.

Secretary.

The secretary shall keep correct books of account of all money received or paid out, a record of the proceedings of the association and the board of directors, and shall call the roll when required. He shall have charge of soliciting for new members, and shall keep a complete register of the name and address of each member of the association. He shall keep a file of all matter submitted for the attention and action of the board of directors, attend to all correspondence, make monthly statements to the board of directors, attend to all duties usually pertaining to the office of secretary and such work as may be assigned to or required of him from time to time by the directors. He shall receive all money due the association, pay the amount received to the treasurer taking his receipts therefor, and make monthly report of receipts to the board of directors.

Treasurer.

The treasurer shall have charge of all money belonging to the association and disburse the same on the order of president, countersigned by the secretary, after the demand therefor has been allowed by a majority of the board of directors and their approval endorsed thereon, and he shall make reports to the association at regular meetings and whenever required by the board of directors. He shall deposit the funds in the name of the association in such place as may be designated by the board of

directors.

Salaries. Article 6.

No officer of the association or member of the board of directors (except the secretary) shall receive any compensation for his services. The salary of the secretary shall be fixed by the board of directors and may be changed by them.

Meetings Association. Article 7.

The annual meeting of the association shall be held at eight o'clock p. m. on the second Wednesday of July of each year, and notice thereof shall be given by the secretary by advertisement in some news paper published in the city of Jackson not less than fifteen days prior thereto, and no other notice of such meeting shall be necessary.

Regular meetings shall be held on the second Wednesdays of January, April, July and October, and notice of same shall be given by the secretary by advertising in some newspaper published in the city of Jackson not less than three days prior to such meeting and no other notice shall be required.

Special meetings of the association may be called by a notice in writing signed by any five members of the association and filed with the secretary not less than five days before the date fixed for such meeting. The secretary shall thereupon cause a copy of such notice to be addressed to each member at his place of residence or business as shown by the register of said association and sent by mail with the postage prepaid at least three days prior to the meeting.

At all regular or special meetings of the association fifteen (15) members shall constitute a quorum. In the absence of a quorum the members present shall have the right to adjourn from time to time until a quorum is obtained.

Meetings. Directors. Article 8.

The regular meeting of the board of directors shall be held at the place of business of the association at the hour of eight o'clock p. m. on the second Wednesday of each month. In case of the absence of a quorum, the members shall have the right to adjourn from time to time until a quorum is obtained.

Indebtedness. Article 9.

This association shall not create, audit or allow or permit to accrue any debt or liability above the actual revenue or available means in its depository.

Rules or Order. Article 10.

Questions or debate shall be decided in accordance with rules laid down in Roberts' "Rules of Order."

Order of Business. Article 11.

1. Roll Call.
2. Reading of minutes of previous meeting and communications.
3. Reports of committees and report of officers.
4. Unfinished business.
5. New business, bills, reports.
6. At annual meetings only, election of executive committee.

By-Laws. Article 12.

These by-laws may be amended at any regular meeting or special meeting upon a two-thirds vote of all member present, provided the member proposing said amendment shall present the same in writing to the secretary, who shall, ten days previous to the proposed meeting mail written notices to each member of the association that such amendment would be considered at said meeting.

Official Seal. Article 13.

This association may adopt an official seal, of such design as may be decided upon by the board of directors.

Article 14.

In order to carry out the aims and objects of this association and to promote the interests thereof, and in consideration of the benefits to accrue to us therefrom, we hereby subscribe to the foregoing by-laws and severally promise to faithfully and diligently co-operate in every reasonable way.

BIBLE STUDY CONTEST.

Suggestive Questions on the Sunday School

Lesson by Rev. Dr. Linscott for the

International Newspaper Bible Study Club.

(Copyright, 1909, by Rev. T. S. Linscott, D.D.)
June 13th, 1909.

Heroes of Faith, Heb. xi:1-40.

Golden Text—Faith is the substance of things hoped for, the evidence of things not seen. Heb. xi:1.

Verses 1-3—In what respects are faith and hope similar.

If a desirable thing is possessed by faith, does that give as much, or similar, satisfaction, as the possession of the thing itself.

What is the ground of our faith, that "the worlds were framed by the word of God."

Why do we admire the men of faith of past years.

Verses 4, 5—Abel had a truly religious nature; now was this nature the result of his faith, or was his faith the result of his nature.

Does this record mean that Enoch's translation was directly caused by a specific act of faith, or that his general life of faith made him such a good man that God translated him without death.

Verses 6—FAITH is sometimes based upon outward evidence; sometimes upon personal revelation; sometimes upon intuition, and sometimes upon composite grounds; what moral or spiritual qualities, therefore, are necessary for becoming a man of faith. (This question must be answered in writing by members of the club.)

Why is faith necessary in order to please God.

Verses 7—What was Noah's faith based upon, and wherein was his faith meritorious.

Verses 1-2—What was the difference, if any, between Abraham's faith and

that of the Pilgrim fathers, when they left the old country for the American land of promise.

I take it that Abraham, and the Pilgrim fathers, while in communion with God, felt a drawing to go to the rich country in the distance about which they had heard; that they took this drawing to be the voice of God; and in this faith they started out; what evidence is there that their faith was true, and that such faith is always dependable.

Verses 13-16—Why is it that all nations and peoples, in all time, so far as we have any record, believe in, and "desire a better country, that is an heavenly."

Verses 17-19—Give from memory the account of Abraham offering up his son Isaac.

What is the particular virtue, in Abraham obeying God in the matter of offering up Isaac.

Would it be a virtue or a vice in those days, if any man should do the same thing as Abraham did.

Verses 20-31—Suppose the persons mentioned in these wonderful verses, Isaac, Jacob, Joseph, Moses and Rahab, had been lacking faith in God, in these critical moments of their lives, what would have been the difference in the results.

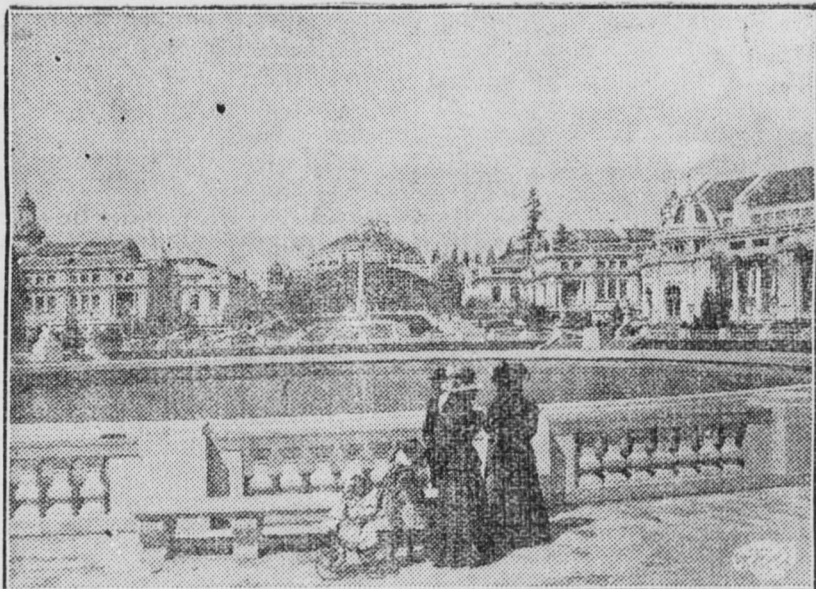

Does faith in God always make the present happy, and picture in glowing colors the future.

Verses 32-40—Have men distinguished for their faith always been noted for their goodness.

This is a thrilling account of the exploits of the man of faith; give me an account of the achievements of men noted for their lack of faith.

Lesson for Sunday, June 20th, 1909. —Review.

Alaska Yukon Pacific Exposition.

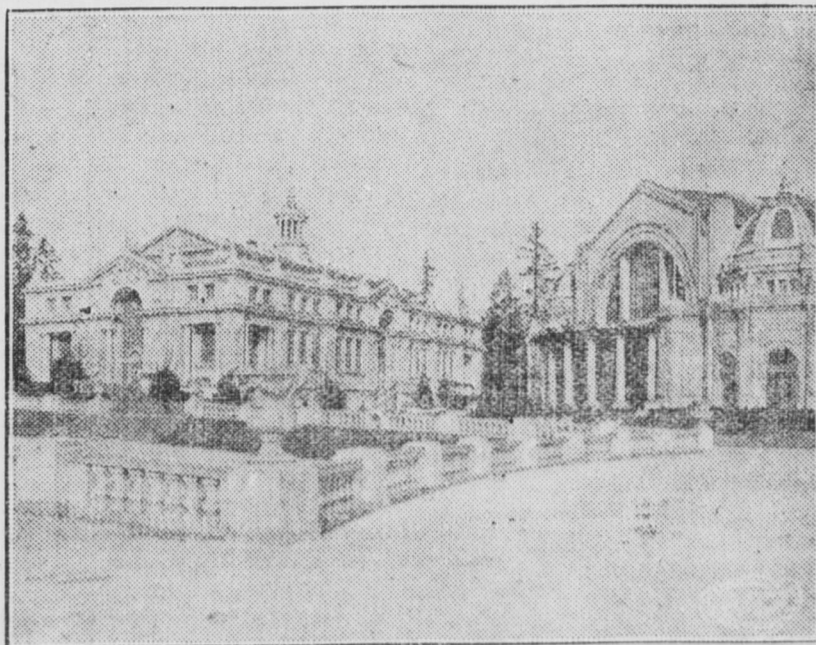

A VIEW OF THE COURT OF HONOR, A.-Y.-P. EXPOSITION, SEATTLE.

All of the principal buildings of the Alaska-Yukon-Pacific Exposition are grouped in close compass around the Cascades and Geyser Basin and the flower beds which line each.

The picture shows a view from the lower side of Geyser Basin, directly up the Court of Honor. On the right are seen the Palace of Manufactures, the Oriental and Hawaiian Buildings. On the left are the European Exhibits and Alaskan Buildings. In the far center is the Central Government, which shows its incomplete front as it looked on April 15. On that date this was the heaviest piece of construction to be finished before the opening day of the Exposition and the contractors estimated that it would take them ten days to do the work.

Geyser Basin is in the foreground, and just beyond it show the steps in the Cascades.

A PORTION OF THE CASCADE COURT.

The Palace of Oriental Exhibits forms one of the twelve mammoth display buildings first completed by the Alaska-Yukon-Pacific Exposition. Its lines are in pleasing contrast to the Agricultural and Manufacturers buildings, with which they are grouped, and their position overlooks the beautiful formal gardens and water display of the Cascades and Geyser Basin.

The exhibit placed within the walls of the Oriental building constitutes one of the most gorgeous displays of Far Eastern art and manufactured articles ever shipped from the Orient, and is bewildering in beauty and extent. Not a country of Asia is without representation, and treasures of old and modern art, never before permitted to leave the lands in which they were created, will be seen for the first time in the land of the Occident. The matter of arrangement of the Oriental exhibit has been placed in the hands of the most competent and artistic men at command and its display will be worthy of the magnificent collection.

About the Oriental building are gathered the great buildings housing the United States exhibit and the Alaska, Hawaiian and Philippine displays. One of the largest bandstands is within close distance, and from its doors the most noted musical organizations of the world will be heard daily.

FROM OUR
CORRESPONDENTS

DEFENDER.

June 6—The weather has moderated since the first day of June, which was very hot.

Harvesting the crops, is what every one is doing in the vicinity of Defender at present. Grass or natural hay is of very light yield, but oats hay is very good considering no rainfall for the last two months. J. P. Harker and son have a very good crop of cats hay, which is ready to mow. They built a large new barn during the winter months. They have just finished cutting several hundred mining timbers, and have all their late potatoes cultivated and ready to irrigate.

Kimball Bros., are right in the midst of harvesting. The boys just finished a contract of timbers for mining purposes. The timbers go to Jackson. Alonzo Kimball has been on the sick list for some time. He is slowly recovering under Dr. Goodman's treatment. La Virgne Kimball, who has suffered all winter and spring from a severe case of rheumatism, is somewhat better at present.

Mr Kimball sr. has returned from Sacramento, where he had gone on business.

Defender has a fine looking business aspect, Messrs Putman, Colman and Joyce are erecting a cyanide plant to work the tailings by the cyanide process, of which they have a large amount saved for years, out of which they expect to realize a good dividend. There are 13 large tanks through which they work the tailings or sulphurets. A hydraulic pipe extends from the Jackson ditch to the plant about a quarter of a mile.

Mr and Mrs Ludekies attended the Italian picnic Sunday. They keep the boarding house and have a number of boarders.

Geo. Horn, our genial postmaster, erected a flag pole and represented Uncle Sam by having a flag raising. Three of Defender's ladies raised the flag, namely, Mrs Coleman, Mrs Ludekens and Mrs Lawrence McKenzie.

Mrs John Fisher has been slightly ill, but is now recovering. Her son-in-law, Eli Smith, wife and two little girls are visiting at her home for the summer. The little girls are attending Pioneer school. Mrs Joyce is teacher, the school will close in a few weeks for the summer vacation. There is a large attendance every day.

Mr Joyce will harvest his crop of grain next week.

Mrs Phillips is visiting her two daughters, Mrs Addie Joyce and Mabel Smith.

Ben Smith is working at Defender for Mr Coleman, the cyanide man.

Lee Payton, ditch tender, has strawberries galore; some of the berries are three inches in circumference.

We have services at our church at Defender every second and third Sundays of the month conducted by Rev. Merley.

Miss Inez Nichols has returned to her home at Antelope from Pine Grove, where she visited after a flying trip to the county seat with Dan Bowen. Wedding bells will ring for them some time this month.

Miss Maud McKenzie returned to her home in Antelope as her school at New York Ranch has closed for the summer vacation.

John Klaman is busy running a tunnel for quartz. He has a cozy batchelor's home on the river side and raises berries. He has mammoth blackberries, Logan and raspberries. He also has a vineyard and makes his own wine.

Mr and Mrs Q. Mason are busy caring for their garden on Pioneer creek. Mr Mason has a mountain ranch on which he is making improvements.

Cattle men are passing every few days on their way to their mountain ranges driving their cattle.

Mrs Maud Barnhart has moved to Defender from the electric company's ditch to reside for some time.

Every two days we see our good looking constable with his smiling countenance at Defender. He is delivery man for Mr Cassidell as well as constable.

Albert Kimball and wife made a flying trip to Sutter Creek.

Mrs H. H. Harker visited Mrs W. H. Glenn Sunday.

Fruit will be plentiful from the outlook this season.

Mrs Belderain is raising turkeys, her son, Rene, is working on the Standard Electric ditch.

Mr and Mrs Will Marchand have just recovered from a serious sick spell. Mrs Marchand expects to go to the city as soon as Mr Marchand is entirely well. Bryon Beare, a nephew of theirs, made a flying visit to Marchand's. He visited the home of his birth. He and wife live in Stockton.

Mrs Lucie Smith is in the turkey raising business. She is looking forward to Thanksgiving.

Bert Smith and wife have settled down like all good married people to business and work. Bert has cut a large number of timbers for the Jackson mines.

The mowing machine is at work at Glenn's station, as they are busy harvesting. Charlie just finished cutting timbers. There isn't much travel on the road, consequently there is little business for the stations at present.

Mr and Mrs N. C. Williams are busy, as they are raising vegetables for sale, making butter and are in the poultry business selling eggs and butter.

A Vital Point

The most delicate part of a baby is its bowels. Every ailment that it suffers with attacks the bowels also endangering in most cases the life of the infant. McGee's Baby Elixir cures diarrhoea, dysentery and all derangements of the stomach or bowels. Sold by Rubner's City Pharmacy.

IONE.

June 10—Mrs A. H. Minor and Mrs R. B. Bagley, delegates to the grand parlor of N. D. G. W., departed last Monday for Del Monte, where the session will be held.

Clarece Jarvis arrived in Ione Tuesday. His many friends will be glad to learn that he is very much improved, although he will require medical attendance for some time.

Miss Edith Campbell, who has been attending Heald's College at Stockton, came home Wednesday for a visit with the home folks.

Geo. P. Mack, member of the board of education, conducted the ninth grade examination here last week. A class of sixteen tried, but the number of successful ones, up to the present time, is not known.

Miss Pearl Bank of Berkeley, is the guest of Miss Margaret Marchant for a couple of weeks.

Elwood Jones and Chester Prouty left Wednesday morning for Berkeley, to attend the summer session at the University.

While blasting at the brick yards Wednesday morning Walter Simmons was seriously hurt by the untimely explosion of the blast. He had his hip dislocated, besides various other bruises, but the doctors give out the encouraging report that the injuries are not dangerous.

Mrs Chester Scott of Oroville, is a guest at the home of R. R. Scott and family.

Miss Margaret McDonald left this morning for Oakland, where she will visit for several weeks.

OLETA.

June 8—The farmers are all very busy now with their harvests. Haying is the main thing now.

Mrs H. Schroeder and daughter, Kate, are going to start for Gilroy tomorrow on the outgoing stage. They intend spending a while on the coast for the daughter's health.

Mrs Alma Shealer is visiting her parents in Plymouth at present.

I. Ostrom's team has started with Mr Elvin Shealer as teamster.

W. D. Clark wears a broad smile now-a-days, because he is the proud father of a 16. boy, born this morning of the 8th of June. Mother and son doing nicely.

School was closed for the term of Miss Armistead to-day.

SHENANDOAH VALLEY.

June 9—News was received from Sacramento this week of the death of Mrs W. H. Crofton, a native of Shenandoah, and youngest sister of O. E. Harrel, of this place. The news came as a shock to her many friends here, who remember her as Hattie Harrel, one of our most popular girls before her marriage and removal to the city, some eleven years ago. Besides her husband she leaves to mourn her loss, her mother, one sister, Mrs Harbin, and five brothers, James, John, Alvin, Frank and A. E. Harrel.

Little Mabel Kretcher, daughter of Mr and Mrs Geo. Kretcher, was taken to Dr. Goodman's sanitarium last week to be treated for appendicitis.

Mrs M. Upton has been very sick for some days from the after effects of an attack of pneumonia about a year ago.

F. A. Ball, teacher of the Sutter Creek school, came home Wednesday for the summer vacation.

F. D. Davis went to Jackson Saturday for the session of the county board of education, returning Sunday night prior to a trip to Volcano, where he conducted the examinations. Returning Tuesday evening, and leaving again Thursday morning for Jackson for the remainder of the session.

Will Gorton and little son of Amador City, were guests of Mrs A. J. Crain from Saturday to Sunday last week.

Your correspondent is engaged in wrestling with a particularly husky cold, but hopes to come out on top. Shau.

A daily paper—Bulletin—and Amador Ledger for \$3 in advance.

PLYMOUTH.

June 9—Mrs H. E. Potter accompanied by her children, Raymond and Marjory, drove over to Forest Home and spent the day with Mrs Votaw on Saturday last.

The Plymouth Brass Band gave a dance in Latrobe on Saturday last. Several of the Plymouth people were in attendance. Mr and Mrs J. E. Walton and Miss Mae Easton went in the auto.

Harry Weston had the misfortune to get his elbow thrown out of place while attempting to ride one of the lively horses belonging to Mr Nunnis. J. E. Walton is on the sick list.

Miss Laura Warren and Miss Bessie Neff of Aukum, have been staying at Easton's hotel for the past few days while taking the examinations.

Clarence Weston, accompanied by his sister, Miss Marie, went almost to Carbondale Sunday evening hunting rabbits. They succeeded in killing two.

Several new telephone posts have been erected in this town the past few days, making things look a little livelier.

George Clark who has been working at the Caldor saw mill, has returned to his home in Plymouth.

Charles Devore's saloon was robbed some time this morning. The door was broken in. The cash register was robbed and the slot machines were broken into. About \$25 was taken.

Wild Roses.

SUTTER CREEK.

June 10—John A. Melatrie of Sacramento, arrived here last Friday evening. Sunday and Monday, accompanied by John Ross and other mining men, were visiting in Amador and Sutter in regard to mining interests.

Miss Leua Boitana, our smiling hello girl, left Friday morning for Sacramento, for a short vacation, and also to attend the wedding of her brother, Louis, at that place last Sunday. Miss Edith Daneri is answering the hello calls during Miss Boitana's absence.

Mrs F. W. Morrish and little daughter, Marjorie, of San Francisco, arrived here Saturday evening, to visit her parents. Mr and Mrs L. H. Simmons, and other relatives.

Miss Margaret Lawlor left Monday morning en route to Del Monte, to attend the grand parlor of N. D. G. W., which convenes at that place this week.

Mrs N. Hornberger went to Sacramento Wednesday, for a short visit with her son, Eli Bates.

Charles Maloch returned Monday evening from a month's visit in San Francisco and Stockton. Sutterite.

We do not know of any other pill that is as good as DeWitt's Little Early Risers, the famous little liver pills—small, gentle, pleasant and sure pills with a reputation. Sold by City Pharmacy, F. W. Rusher, prop.

Children under 14 years .25

Tickets may be exchanged for reserved seats without extra charge. tt

Better Not Get
Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.

Ordinary peptic "dyspepsia tablets," physics, etc., are not likely to be of much benefit to you, in digestive ailments. Peptic is only

a partial digester—and physics are not digesters at all.

Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do.

Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 2 1/2 times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

ITS ALL IN THE SOUND BOX

The Edison Gem Phonograph has the same sound box as the highest priced one, and sounds as well. It will last for years. We never saw one worn out. It sings as sweetly as the most cultivated singer, and renders perfectly the tones of the various instruments of orchestras and bands.

We have secured from the Edison Phonograph Co. the right to distribute 100 of these wonderful phonographs and 3600 records for advertising purposes. The lowest cash price anywhere in the world for an Edison Gem is \$12.65 and 26 gold molded records at \$12.50.

Our Special Offer.
We will sell you the entire outfit for \$25.10. Send \$3 in cash and \$2 per month thereafter until paid and the outfit is yours. No interest on deferred payments. Any time inside of a year if you wish to change for a large r Edison phonograph you may do so. Simply pay the difference in easy payments. Don't wait, as many are taking advantage of this offer.

LOCAL NEWS

J. F. Wilson, Dentist. Hours 9 a. m. to 5 p. m. Phone—Office, black 444; residence, black 394; Jackson.

Mrs. Abramofsky returned Saturday evening from a pleasant visit of a month with relatives in San Francisco.

Mrs. Annie Hurst, Mrs. Clara Calvin and Miss Berdie Lucot went to Monterey Monday, as regular delegates from Ursula parlor to attend the grand parlor which convened in Monterey on Tuesday last. Mrs. Caminetti and Miss Emma Boarman also left for the same point, Mrs. Caminetti being entitled to a seat in the grand lodge as a past president.

Superior judge Fred V. Wood left Monday morning for Oakland to hold court for Judge Waste of that county, who is still too sick to attend to judicial business, and has been recommended by his physicians to take a short vacation in the mountains.

For Sale.—Horse, buggy and harness. Horse is good either single or double. Buggy and harness in good condition. Will be sold cheap. For particulars apply to

A. H. Steffen, Amador City, Cal.

The salary of the postmaster at Sutter Creek has been reduced \$100 per year, on account of the falling off in the receipts of the office.

Grant Palmer, who spent his boyhood days in Jackson, and who left here over twenty years ago with the rest of the family for Santa Cruz, was here the early part of the week on a visit for his health.

Nick Samargio, a miner at the Argonaut, is under treatment of Dr. Sprague for a sprained back. It seems about two weeks ago he fell a distance of fourteen feet, alighting on his feet, and apparently receiving no injury other than the jolt. He kept at work, but ten days after the mishap he was compelled to seek the services of a doctor. He has been laid up in bed for several days.

For Sale.—218 acres of good agricultural and grazing land, at Forest Home. Thirty acres timber land, with at least 1000 cords live black oak. For full particulars apply on premises, or to John Oulds, Jackson, Cal. my 7-t f

E. C. Baker, who has been bookkeeper at Electric for several years, has resigned his position. He left for Sacramento on Sunday last. Mrs. Baker is staying in Jackson for a few days, after which she will join her husband.

Phillip Roberts, for many years employed at the Zeila, has secured a position as foreman of the Fremont Consolidated mine near Drytown, and entered upon his duties the fore part of this week. He is a thorough all round miner.

Wanted.—A solicitor to secure orders for the tailoring business. Good salary to the right man, and steady employment. Apply to Wm. Ross, the tailor, Jackson.

Mrs. D. N. Mason and her daughter Miss Eva Mason, of Solano, are visiting with D. S. Mason and family at the National hotel.

The Italian Picnic.

The annual picnic in celebration of Italian independence was given at Fullen's grove just beyond Martell's station on Sunday last. The weather was all that could be desired. The crowd did not gather to the extent as on some former occasions, although there was a good attendance fully up to expectations considering the conditions owing to the shut down of the mines in the first part of May, and the consequent lack of funds on the part of many who usually spend with a lavish hand. Money was not in evidence so plentifully.

Reaching the grounds, the literary and musical exercises took up the time until noon. Pio Morbio of San Francisco was the principal speaker in the Italian language. Superior Judge Fred V. Wood delivered the oration in English. His address was entertaining and instructive, and was highly appreciated by all present.

In the afternoon the main attraction outside of the dancing platform, was the base ball contest between Jackson and Sutter Creek teams. There is always more or less rivalry whenever representatives of these towns meet on the diamond. This was keyed up to the top notch on this occasion by the fact that a prize of \$75 depended on the outcome. Jackson team was reinforced by one professional player from the outside—Hoag. The Sutter players drew liberally from outside Amador county, four of their players coming from outside points, Enright, Cox, Devine, and Wright. Devine, the catcher for Sutters, was placed out of the game by a misfortune. In trying to catch a ball, he was struck on the thumb of the right hand, breaking the bone, of course injuring so he could not thereafter participate. His place was taken by Brier. Another accident befell one of the Sutter team—Grillo. While at first base, looking out for the ball to be thrown, he was run into by Hoag and injured so that he had to retire for the day. His place was taken by Wright.

From start to finish there was continual wrangling, and not a little feeling exhibited, growing out of incidents in the game. Fisticuffs were called into play once or twice. Finally the Jackson team came out winners with a score of 6 to 3.

The line-up and score is given below:

Jackson	p	Sutter Creek.
Hoag	Cox	
White	Devine	
Cromer	Grillo	
Merkle	Sautiffo	
D. Fortner	Enright	
Miller	2d b	Cassella
Connors	1 f	Pickering
Vela	c f	Kerr
Gaffney	r f	Lagomarsino

Runs and Hits by Innings.

Jackson	0	0	0	1	0	1	— 6
Hits	1	0	1	2	1	3	— 11
Sutter Creek	0	0	1	0	0	0	— 3
Hits	0	1	1	1	1	1	— 8

The umpires were W. Stewart of Ione and Davis of Sutter Creek.

The bocha game for prizes of \$20 and \$10, first and second best score was participated in by sixteen contestants. The winners were from Jackson.

The other amusements, in the way of concessions, were limited. There was no merry-go-round for the children this year, as the price demanded for the privilege was considered too high. Throwing at the nigger babies for prizes, the exhibition of the two-headed calf, which was born near Butte City a few months back, and one other attraction in the amusements line, constituted the sum total of this pleasure. They all did a fair business.

The bar, candy stand in care of the committee, and the lunch counter were liberally patronized. It was remarked that there was a dearth of money as compared with some of the flush years of the past. The total receipts aggregated between \$1100 and \$1200, and this will about meet the expenses.

Two or three automobiles piled for hire between the picnic and Jackson and Sutter Creek. William Bottomer of Galt ran an auto between Jackson and the picnic grounds. He did a thriving business for a time, charging 50 cents each way, and making a round trip in half an hour. They tried to make him pay a license, but he hauled off his machine in time to avoid payment.

A mysterious disappearance of a sum of money belonging to the picnic committee, occurred at closing up time about midnight. J. J. Dalo and others managing the affair, deposited the receipts in a large box. In this box was also a cigar box containing \$94, representing the receipts from the candy stand. At closing time Dalo opened the large box for the purpose of paying the Davenport orchestra, as one of the players was from Ione, and wanted to get his pay. Dalo paid him from the loose coin in the larger box, but at the same time took out the small cigar box and laid it down on the outside for a moment, intending of course to replace it in the main receptacle again. Thinking everything was all right the box of coin was brought to Jackson

and given to the deputy sheriff for safe keeping over night in the court house. Next morning on opening the box the small cigar box was not there. It had evidently been neglected to be replaced the night before. Every effort was made to trace the box and the money, but without avail. The management is out the \$94.

FATAL ACCIDENT AT ZEILA

August Hondeville Falls 600 Feet, and Instantly Killed.

A miner named August Hondeville, a young man in his nineteenth year, met a violent death in the Zeila mine on Saturday morning last, by falling in the shaft a distance of about 600 feet. The tragic event was due to bewilderment on the part of the victim. He was a stranger in the mine, having only worked one shift before, and had just come from Camp Seco, where he had worked in the copper mine. It seems that he went to get off the skip at the 1215 level. He was on the skip in the south compartment, and attempted to get off on the north side. This is frequently done, although attended with more risk than getting off at the right side.

There were several at the station at the moment of the accident. Hondeville was noticed to place one foot on the timber, and the other foot was planted in the abyss of the shaft. He disappeared. There was no lack of light, as fifteen candles were burning there at the time. He became bewildered and probably thought he was getting off at the usual side. Wm. Harvey, the foreman of the mine, noticed him get off the skip and disappear, and remarked to those present, "He has gone down the shaft." The noise of a falling body was heard, and naturally his fellow workmen were horrified. Men were at once started down the shaft. Six employees headed by Wm. Harvey went to the 1570 level, and thence descended the ladder way to the water line in the sump. By means of grappling hooks the body was soon recovered. The condition of the mangled remains showed that death must have ensued before he reached the water. The back portion of his head was shattered, and portions of the brain matter was gathered up at different points. The left leg was broken above and below the knee. Coroner Potter was notified, and the same afternoon impanelled a jury to investigate the sad affair. The jurors were, Geo. A. Kirkwood, Wm. M. Penny, Walter Taylor, J. H. Thrasher, H. D. Emerson, Theodore Schwartz, J. D. Palmer, Geo. E. Vela, R. Prior, H. N. Mason, and B. F. Gilbert.

Obren Millerlich, who was on the skip with the victim, and Wm. Harvey and John Ban were examined, and gave the facts as narrated above. The jury returned a verdict, that deceased came to his death accidentally falling down the shaft.

The victim was only 19 years of age. He was a native of France. He had only gone to work at the Zeila the day preceding his death. He had worked a few days at Camp Seco. He was a shoveler. Adam Preton, a witness, said he had known him for about 15 days while employed at Camp Seco. He was a single man, leaves a sister in San Francisco, and a father in some part of this state. The remains were shipped to San Francisco Sunday.

Amador County Couple Wed in Sacramento.

Louis Boitano and Miss Katherine Arnes, both popular young people of Sutter Creek, Amador county, were married by Father Elie at the Sacramento Cathedral on Sunday, June 6th, at 2:30 o'clock p. m.

The bride was attired in pale blue silk, and was attended by Miss Lena Boitano, sister of the groom, and Mark Melignoni acted as best man. A large party of friends witnessed the ceremony, which was followed by a reception at the home of Mrs. L. M. Halterman, 3030 Orange Ave., Oak Park, where the bridal party was greeted with a shower of rice.

After congratulations were extended, accompanied by a march played by Miss Heene Fields, the guests repaired to the dining-room where refreshments were served. The rooms were beautifully decorated in blue and green.

Those present were Mr and Mrs L. M. Halterman, Mr and Mrs E. C. McCormick, Mr and Mrs H. M. Fields, Mr and Mrs Farreu, Mr and Mrs Frank Britt, Mr and Mrs Petter son, the Misses Lena Boitano, Hallie Oswalt, Nellie Davis, Helen Welch, Heene Fields, Maybelle Littlejohn, Annie Cassella, Eva Sexton, Florence Gardner, Messrs. Mark Melignoni, George McCormick, Will Johns, Harry Withrow, Frank McCormick, Joe Mendenhall, Clarence McCormick, John Williams, Robert Halterman, Clifton McCormick and Lloyd Pour nier. The young couple received many beautiful presents. After a trip through the southern part of the state, they will return to Sutter Creek, where they will make their future home.

Rent will be charged on idle meters, and after 60 days they will be removed without notice. H. E. Letang.

One Doctor—Only One

No sense in running from one doctor to another! Select the best one, then stand by him. No sense either in trying this thing, that thing, for your cough. Carefully, deliberately select the best cough medicine, then take it. Stick to it. Ask your doctor about Ayer's Cherry Pectoral for throat and lung troubles. Sold for nearly seventy years. No alcohol in this cough medicine. J. C. Ayer Co., Lowell, Mass.

Why try this thing, that thing, for your constipation? Why not stick to the good old reliable family laxative—Ayer's Pills? Ask your doctor: if he approves this advice.

SUPERIOR COURT PROCEEDINGS

HON. F. V. WOOD, JUDGE

C. Dufrene vs. Allen Estate Co.—No appearance of plaintiff. Court ordered the matter submitted, and will decide same on June 22.

E. C. Wooster vs. Martha Wooster.—Final decree of divorce granted as prayed for.

Estate of Alex Orr.—John Orr appointed administrator upon filing bond of \$3300.

Levi A. Boshaw vs. Bertha Boshaw.—Complaint filed, and summons issued.

People vs. Thomas Snailham for breaking jail.—Plea of guilty, sentenced to 2½ years in San Quentin.

New Cases

Depositors Association of Sutter Creek State Bank vs. W. H. Huey et al.—Suit in behalf of 116 depositors of the defunct Sutter Creek State Bank, who had all the way from \$1.80 to \$2200 on deposit in the bank at the time of suspension to recover from stockholders in said bank, according to amount of stock held by the individuals. The claims have been assigned to the Depositors Association. The amount claimed from the stockholders individually is as follows:

W. H. Huey	\$1769 60
John Levaggi	1327 20
Mike Levaggi	1327 50
Fred Rabb	442 10
James Doe Frederickson	1769 60
Jackson Dennis	35834 40

Harding & Monroe are attorneys for plaintiffs.

Application of George Pires for writ of habeas corpus.—Petitioner is an inmate of the Preston School. He was charged with petty larceny committed in Santa Barbara county, pleaded guilty before the justice court, and thereupon the justice entered the following order relating to petitioner and another co-defendant: "And in consequence of their minor ages it was ordered by the court that the defendants be committed to the superior court, and recommends that defendants be committed to one of the state reform schools." And under that form of commitment the superior court made an order committing defendant to the Preston School. The application is made by Joe Pires, the father of the George Pires who is said to be illegally restrained of his liberty.

Tapping Slot Machines.

Jackson has passed through a siege of the operation of a brace of professional slot machine tappers. They are master mechanics in the business. A few days ago a couple of neatly attired men—strangers—walked into the Grotto saloon and wanted eggnoo. They knew, of course, that filling the order would involve a trip of the bartender to the grocery house after eggs. While the one in charge went to Giovanni's store the job was done. With a fine drill, and exact knowledge concerning the right spot to operate upon, a hole was drilled to the mechanism, thereafter a fine wire was inserted, which released the wheels, letting all the money out as though a winning had been made by a player. The bar tender returned and made the eggnoo, all unconscious of the game that had been played. After drinking the men tackled the tampered machine, fixed it course to win, and won \$3. There was not that much in, so the proprietor paid the difference. The bunko men left, and went to Perlenda's, and made a haul there in the same fashion. The Globe hotel was visited. Chez Ardito was called upon, but he got wise, and declined the eggnoo bait. Then Joe Dalo was visited, and while he went across the street to Ginocchio's for eggs, his machine was rifled to the tune of \$250. In one or two other saloons the drill hole was made in the machine, but nothing further done, as the tapping of the money while other persons were around would make sufficient noise to lead to detection. It is believed the crackmen got at least \$50 in this way as the receipts of a few hours' work. The men were not arrested and went on toward Sutter Creek. The slot machines are illegal devices, and the victims were unwilling to prosecute the men, owing to complications that might arise on that score. The men returned to Jackson after being away a day. They were arrested on Wednesday, charged with malicious mischief. Both pleaded guilty before Judge Thompson, and were fined \$50 or 60 days in jail, and allowed until tomorrow to get the money, with their liberty in the meantime.

The Fourth Celebration.

Things are moving for the big celebration in Jackson July 4 and 5. The big dancing platform, 50x150 feet, behind the bank, is being rushed to completion. The first dance thereon is announced for tomorrow night. The other committees are hard at work. Three prizes will be given for the best floats. A \$25 prize is offered for the best float by societies, \$15 for second best, and a \$10 prize for the best decorated private vehicle in the procession. All the societies are requested to participate in the procession, and to compete for prizes. A boxing contest will be a feature of the 5th, to take place at 5 o'clock in the evening. W. R. Jacob of Stockton, a noted attorney, will be orator of the day; and Homer Heuley, a professional singer, has been engaged to sing. The big posters will be out on Monday.

From Our Exchanges.

The Kelly Gulch bonanza quartz mine on J. R. William's ranch, two miles from Vallejo was purchased on May 15, by Joseph A. White. He began work on it May 17th with three shifts of men and the first pay ore was struck in one week and good for \$2000 per ton. By Friday, May 28th, the ore increased in value to \$2500 per ton.—Prospect.

Last Saturday afternoon word was received here of the death of John Lavagnino, a well known citizen of this town. According to the report, Lavagnino and Ben Curti, with a number of men, were working at Blue Mountain, about two miles from West Point, developing a quartz mine and erecting a 5 stamp mill. On Saturday Lavagnino was at work on the roof of the mill putting on shakes, while a short distance from the building men were engaged in felling a large tree. About the time the tree was ready to fall the men warned Lavagnino, asking him to get down from the roof and out of harm's way, as the tree was apt to sway from the intended course in its descent and strike the mill. He replied that he was safe and for them to go ahead. The tree in its descent fell upon the mill, breaking in the roof and crushing the building to the ground. Lavagnino fell to the floor of the mill with the timbers piled upon him. He was promptly taken out, when it was found that he was dead; his skull being crushed and his back broken. Deceased was a native of Italy, but had lived in this town for upwards of eighteen years, and was a man of sterling qualities. A wife, three children, mother and two brothers survive him.—Angels Record

The civil suit of John Womble, Alex M. Womble which was set for trial in the superior court this week, came to a sudden close Tuesday afternoon. The suit was brought to practically set aside a deed on the ground that the conditions of the sale had not been complied with and involved the title to a half interest in mining property near Hodson. The point at issue was similar to that raised in the San Domingo case, in which the decision of Judge McSorley was sustained by the appellate court. The plaintiff in this case claimed that a deed on which the defendants based their title, had been given in consideration of certain agreements, which had not been fulfilled, such conditions not being set forth in the deed, but to be established by parole evidence. It was when the attempt was made to introduce the evidence, that the Waterloo came to the plaintiff. The judge excluded it in accordance with the San Domingo ruling and the case went out of court, with judgment for the defendant for his costs. W. A. Dower and A. H. Carpenter were attorneys for plaintiff and S. D. Woods for the defendant.—Prospect.

The residence of Judge C. Tatton at Douglas Flat was totally destroyed by fire about 1 o'clock a. m. of June 2nd last. This is the second disastrous fire within a few years to visit the judge's premises. It is reported nothing much was saved, and the loss of two cosy homes in a short time makes it hard to bear. The friends of the family extend their sympathies, and are ready and willing to extend their efforts in establishing a new home. Cause of fire supposed to be a defective flue.—Prospect.

The death of Mr Sibole removes one more of the fast decreasing band of sturdy pioneers who coming to California have made it the empire it now is. In 1861 Mr Sibole left his home in Missouri taking his young wife and three children, a daughter and two sons, all of whom reside in Iowa to-day, and with ox teams made the long trip across the plains. Coming directly to Iowa he decided to remain and for 45 years has been one of our most respected citizens. Mr Sibole was a quiet peace loving man, and ever sought the welfare of all around him. His generous heart not only found expression in loyalty and liberality to the church of his choice but in a much rarer form bloomed forth in kindness and loving care for seven different orphans, whom he admitted to his fireside circle and reared them to manhood and womanhood, securing and retaining their heartfelt love and respect. His many friends will long regret his departure and one and all unite in deepest sympathy and condolence with the bereaved widow and family. The funeral services were conducted at the family residence, Wednesday, June 2, by the Rev. H. E. Burbank pastor of the Free Methodist church of which Mr Sibole has been a devoted member for 24 years.—Echo.

Anson Prouty, who underwent an operation for appendicitis some time ago, found it necessary to return to the hospital to have the wound attended to as it was not healing properly. He is back again and says he expects to be all right in a short time.—Echo.

Over fifty citizens of this county have signed a roll or membership for a business men's club which will be organized in this city within a week or ten days. The club has leased the entire upper floor of the First National Bank building and will fit it up in accordance with a modern club along the lines of those conducted in large cities. The furniture and fixtures will cost about \$2,000. W. D. Bannister and W. J. Hales were the promoters of the movement. An initiation fee of \$50 will be charged which will cover the expense of furnishing and equipping the club rooms.—Tribune Independent.

Miss Foy Keffer, who lives a few miles south of Ione, was operated upon for appendicitis and a tumor at the Meritt Hospital in Oakland a week ago. Operation was performed by Dr. Emmerson and the young lady is doing finely. She expects to be out in a couple of weeks. This will be welcome news to her many friends in Ione.—Echo.

HOMICIDE AT GRIZZLY FLATS

Ed. Stafford Fatally Stabbed by Man with Whom He Fought.

Late Tuesday evening word was telephoned to the coroner and also to the sheriff in this city that a man had been killed at Grizzly Flats. There were many rumors circulated immediately, and it was impossible to get anything of a tangible nature, except that Edward E. Stafford was the victim and that he had been killed by Thomas Pettus. The coroner with an assistant and also the sheriff and a deputy set out immediately for Grizzly Flats. Details of the affray as received to-day are that Ed Stafford, his brother Wm. L. Stafford and several others including Pettus were at Stafford's saloon adjoining the store at the Flats, and that Ed Pettus got into a dispute over a piece of rope which resulted in a fight between them. Stafford had the best of the fight, and let his opponent up when he cried enough. It was renewed, and Stafford again worsted Pettus, who again said he had enough. The two brothers then started home to supper, but Pettus called Ed back, asking him to shake hands and make up. Ed returned, and as he entered the door Pettus stabbed him in the left breast with a pocket knife. Stafford started across the street, but had to sit down. His sister got him a drink of water, and his brother attempted to assist him to the house, but he died within a few minutes after being cut. No attempt was made to detain Pettus and he took a hurried departure, disappearing in the woods soon after.

Pettus is a sandy complexioned man about 40 or 45 years of age, and has been working about three weeks at the Sunshine mine near Grizzly Flats. He claimed to have a mother and sister living in Oakland. He is reported to have been seen about 10 o'clock today at the Tappan place about five miles this side of the flats, and is pretty badly scratched up from the fight, one of his eyes being closed. One of the inexplicable things is that no posse from Grizzly attempted to apprehend Pettus Tuesday night though a bright moon was shining and conditions were extremely favorable for a man hunt.

Edward E. Stafford was a native of El Dorado county, 40 years of age, and a good citizen. He was married, leaves a wife and two children, numerous other relatives, and a wide circle of warm friends. He was a nephew of Joseph Edner of this city. His funeral was held at Grizzly Flats at 2 p. m. Thursday, and Placerville Parlor No. 9, Native Sons, of which he was a member, attended in a body. Rev. E. E. Clark conducted the services.—El Dorado Republican.

Justice Flower of Plymouth was in Jackson Tuesday and informed us that Norman Wheeler captured the man slayer in Shenandoah valley on Thursday of last week. It seems the credit of this capture is primarily due to the Plymouth agent of the telephone line that runs up into Shenandoah valley, Fred Thoms, the postmaster of Plymouth, has charge of this line, and by patrons was posted concerning the movements of the man wanted. He was notified of the movements of a man who answered the description of the accused, who was passing into Shenandoah valley from the direction of Grizzly Flat toward Plymouth. He was traced by phone to the ranch of Harvey Jamerson in the valley, and there by pre-arrangement the stranger was entertained or given word to give time for the constable to get there from Plymouth and make the arrest. The ranch is about four miles from Plymouth. Norman Wheeler hastened thither on learning of the aspect of affairs, arrested his man and took him to Placerville.—Ed. Ledger.

WOOD USED FOR PULP IN 1908.

Washington, June 7.—Two hundred and fifty-one pulp mills in the United States used 3,346,106 cords of wood, and made 2,118,947 tons of pulp last year. Spruce has always been the leading pulp wood, and it furnished sixty-four per cent of the total quantity used. The rapid development of the wood-pulp industry in the last ten years has rendered the domestic supply of spruce insufficient to meet the demands upon it, and consequently importations from Canada have been heavy. In 1908 our pulp mills consumed nearly one and one-half million cords of domestic spruce, and over 670,000 cords of imported spruce, making the imports of spruce forty-five per cent of the domestic supply.

Next to spruce, the most important pulp wood is hemlock; 569,173 cords of it were converted into pulp last year. All the hemlock used was of domestic origin, and most of it was produced in the Lake States and Pennsylvania. Although now used in less quantity than spruce and hemlock, poplar has long been a standard pulp wood. A small quantity of poplar is imported, but by far the largest portion of the more than 300,000 cords used last year was cut from domestic timber. Spruce, hemlock and poplar made up ninety per cent of the total quantity of pulp wood used. The remainder was supplied by many species, the most important of which were pine, cotton wood, and balsam.

The wood used by the pulp mills last year cost them a little more than \$28,000,000, or an average of \$8.33 per cord, against an average of \$3.21 in 1907. The most costly wood used was imported spruce, with an average value of \$10.60 per cord. The cheapest wood which was used in large quantity was hemlock, the cost being \$6.02 per cord. Owing to the uncertain business conditions the total consumption of pulp wood in 1908 was nearly 16 per cent less than in 1907, but this did not prevent a considerable increase in the price of wood. The high price of wood is making the manufacturer be constantly on the look out for cheaper raw material, and one of the most encouraging developments has been the increased use of slab wood and other sawmill waste. This drift in the industry is clearly indicated by the fact that 193,234 cords of mill waste were reported as consumed in pulp manufacture during 1907, while 252,896 cords, an increase of thirty per cent, were used in 1908.

These statements are based upon preliminary report of the consumption of pulp wood in the United States in 1908 issued by the bureau of the census. The bureau of the census and the forest service co-operate in the collection of annual statistics of forest products, and this preliminary report will soon be followed by a bulletin, which will give detailed information upon the use of pulp wood last year, in the various states, the cost per cord, the amount reduced by the mechanical, sulphite, and soda processes, and other facts of interests to the industry.

An Eagle's Aerie.

Wendell McDonald of Sacramento, who is visiting his aunt Mrs. M. A. Lewis of Lotus, is quite fond of wandering about the woods in search of adventure. On one of these expeditions last Sunday morning he discovered an eagle's nest in the top of a tall pine tree on the Lewis place. He climbed the tree and captured alive two young eagles which, though not feathered out, measured eighteen inches from tip to tip, and gave strenuous fight with both beak and talons. They were covered with a mass of down, and were considered quite a curiosity by all who saw them. The lad who captured them prized them highly, and intended to take them to the capital city upon his return home, but they died in a short time, presumably from the heat and handling. The heads, talons and down were kept as trophies, the later when plucked filled an ordinary shoe box. In the nest where they were captured was the remains of a snake and a rabbit, also many bones and claws of other birds, showing that the young eagles were well fed by the old ones. The nest was about four or five feet across, and made of coarse sticks, lined with leaves and grass. When young McDonald was getting the young birds down from the nest the old birds circled over head uttering angry screams, and were joined by several others from nests in near by trees. They did not attack him, however.—El Dorado Republican.

The Big Head.

is of two kinds—conceit and the big head that comes from a sick headache. Does your head ever feel like a gourd and your brain feel loose and sore? You can cure it in no time by acting on your liver with Ballard's Herbine. Isn't it worth trying for the absolute and certain relief you'll get?

"LO" AT THE PHONE.

Any of His Tribesmen Will Do to Answer His Call.

The Indians are great on using the telephone. They have but little or no use for the local boards, their calls being over the long distance. They do not put in a call for the individual. They do not ask for White Eagle at Canton or Flying Cloud at Darlington. The call is for "any Cheyenne." The same is true as to the Arapahoes. Any member of the tribe serves.

An Indian puts in a call for any member of his tribe at Canton, Darlington, Colony, Lawton or any point. It is "up to" the manager to go out on the street and pick up an Indian. Any one will do, so he is of the tribe asked for. He is put up to the phone and the talk proceeds. The talk being in Indian, no one knows what it is about.

If an Indian, say, in Clinton wants to reach one of his people, say, forty miles from Canton or any other given point, he calls for one of his tribesmen, tells him the message he desires delivered, and it is his business to deliver it, even though it requires a night trip and in a storm.

A little Indian baby died near Clinton last year, and his mother desired that her relatives attend the funeral services. They lived out on the prairie northwest of Canton. The telephone was used and a member of the tribe directed to deliver the message to the mother's relatives. It was delivered by a courier across the prairies and canyons, and the relatives came in over the Orient next day.

Last summer a call came to Clinton for a Kiowa that was a poser for the manager. However, he found upon inquiry among the Cheyennes that there was one who had lived among the Kiowas and spoke the dialect. He was put up to the phone and received the call.—Clinton Cor. Dallas News.

Seedless Grapes.

What's become of the "coreless" apple? Twenty years ago it was announced as a discovery or a development calculated to revolutionize the orchard industry. Of late we hear less about it. A little later the "thornless" blackberry appeared on the horizon. It certainly was thornless, but somehow it failed to drive the ferociously armed brambles of the berry gardens into the desert. It is still produced, but the older kinds are yet much more common. Now the "seedless" grape bids for favor. Such a fruit would surely "meet a long felt want." If the quality and flavor of the few thus far grown can be perpetuated and it proves remuneratively productive and capable of "standing up" for shipment there is a big future before it.—Country Life in America.

Camille Flammarion's Home.

M. Flammarion, with his wife, who, by the way, is also a keen thinker and her husband's constant assistant, lives in a chateau at Juvisy, built right on the spot chosen by Louis XIII. to erect a royal residence. Besides being an admirable housewife, Mme. Flammarion is one of the charter members of the Disarmament league. Before Louis XIII. cast his eyes on the place there was a chateau there. Napoleon stayed in it on his way to Fontainebleau. The mansion was acquired later by an amateur astronomer, who had an observatory constructed on the grounds. When he died he bequeathed the entire property to a man whom he had never seen. This man was Camille Flammarion.—"Memoirs of Loie Fuller" in New York Herald.

To Stop Hiccoughs.

Dr. Louis Kolipinski reports the arrest of persistent hiccough by depressing the tongue. A patient was attacked by hiccough which had persisted for four days before being seen by the doctor. He complained of the fullness in his throat, a condition which he thought the result of the hiccough. He was directed to sit up, and with a large spoon handle the tongue was pressed down and back with steady force to allow inspection of the fauces. Firm pressure on the tongue with the hope of further noting the action of the palatal muscles was continued, when, to the doctor's surprise and the patient's astonishment and joy, the hiccough ceased. When the hiccough returned the patient himself stopped it by using the spoon handle.—London Express.

The Flat Wheel.

The enormous energy developed by a flat spot in a wheel has been estimated by Professor Hancock of Purdue university. He finds that a flat spot two and one-half inches long on a thirty-three inch wheel, carrying a load of 6,000 pounds at thirty miles per hour, will deliver a blow to the rail of more than 1,000 foot pounds. The same flat wheel supporting a fifty-five ton interurban car running sixty miles per hour would deliver a blow with an energy of 9,500 foot pounds. Such a flat spot would be produced by wearing off less than five one-hundredths of an inch of metal.—Scientific American.

The Atmosphere of Mars.

Professor Percival Lowell, the astronomer, says that the assistants at his observatory at Flagstaff, Ariz., have been able to determine that there is measurable water vapor on the planet Mars and that the atmosphere of Mars affects the spectrum in the same way, though only one-fifth as much, as does the earth's atmosphere. There has been much controversy with reference to the atmosphere of Mars and its qualities. Those scientists who disbelieve in any life on the planet have known that their point could be proved if the absence of an atmosphere should be shown.

SCIENTIFIC MISCELLANY

Reported weekly for the Ledger.

Life Continued After Stopping.—A Locomotive for Small Railways.—An Unverified Planetary Prediction.—Phenomena of Rare Gases.—Dangerous Ventilation—Metal Ribbon.—Prolonged Diving.—Compass—Steering on Land—Gas from Waves.

Life is continuous from one generation to the next, but late observations have shown its resumption after being apparently brought to a complete stop. Paul Bacquerel has been making experiments with grains of wheat and mustard. These he has dried by a special process for six months, then sealed in a high vacuum for one year, and finally cooled in liquid air for three weeks and at .253 deg. below zero C. for 77 hours. Without water and air, and in a temperature near absolute zero, the protoplasm becomes as rigid, hard and inert as stone. M. Becquerel believes that under such conditions the vital functions must be entirely suspended, yet when sown afterwards the seeds grew as usual, and this is thought to disprove the long-accepted law that the least interruption of life must be death. Whether the apparent stoppage of life may continue indefinitely is a subject for further experiment.

The novel "hydroloem" locomotive of Arthur Koppel, a German engineer, is designed for short railways serving special industries. It has a water tube boiler, two or four cylinders, and as fuel uses either crude oil or tar oil from gas or coke manufacture. Unlike alcohol or gasoline motors, it is reversible without intermediate gearing. It has the high starting power and overload capacity of the steam engine, raises steam in 15 or 20 minutes instead of the two hours of ordinary locomotives, and is free from ashes, slag, smoke, smell and cinders. It combines large capacity with small size.

After half a century of search, Prof. W. W. Campbell regards the problem of a planet nearer the sun than Mercury as settled. Photographs during eclipses make improbable the existence of such a body as large as the eighth magnitude, which Perrine has computed would correspond to a diameter of 30 miles, and a million planets of that size would be needed to account for the observed disturbances of Mercury's orbit. Prof. Seeliger believes that the material causing the zodiacal light is sufficient to explain the irregularities noted in the motions of Mercury, Venus, the Earth and Mars.

Remarkable experiments with two inert gases of the argon group were among the striking features of the late soiree of the London Royal Society. Sir William Ramsay had collected a little radium emanation, one of these gases, and had compressed it into a capillary tube, and then subjected it to varying pressure. The effect was to condense the gas into a minute quantity of dense colorless liquid. This had a strong phosphorescence, but when touched with liquid air it flashed out into a brilliant light like that of a miniature electric arc, at once becoming solid. The other exhibit, by Prof. Norman Collie, showed a curious unexplained property of neon. When this gas was inclosed in a glass tube with mercury at atmospheric pressure, it emitted a vivid orange light; but in a ring-shaped tube filled with neon and mercury and partially exposed to an electric discharge, the electrified part failed to light up on shaking, while the unelectrified portion glowed as brightly as before. When a silica tube was substituted for the glass and the mercury brought to the boiling point, the vapor rising from it gave a green light.

A test of ventilating fans in Brussels has shown that in many places they do more harm than good by stirring up germ-laden dust. In the restaurants and cafes investigated, the number of bacteria in each cubic meter of air ranged from 10,000 to 22,000 before the ventilators were started, from 17,000 to 48,000 after they had been running an hour, and from 27,500 to 85,000 after two hours' running. In a laboratory where remedies for tuberculosis were prepared, the bacteria increased from 8,500 before the ventilator was started to 54,000 after one hour's running and 75,000 after two hours. In a private parlor the bacteria numbered 650 before the starting of the ventilator, 2,500 in one hour and 4,000 in two hours, and then—the ventilator being stopped—diminished to 700 in two hours.

The process of making metal ribbon by pouring a molten stream on a rotating drum has been so developed that narrow bands only 1-1000 of an inch thick may be produced at the rate of 2,500 feet per minute, and a

large machine just made in London has a dozen or more nozzles for giving as many ribbons at once. The ribbon is projected ten feet or so, falling unbroken. The process has been applied to aluminum, zinc, tin, lead, copper, silver and gold.

Divers increase the time that they can remain under water by a little preliminary deep breathing. A late experimenter has found that without preparation he could hold his breath for only 42 seconds; but after one minute of forced breathing he could hold it for 2 minutes and 21 seconds; after three minutes, for 3 minutes and 21 seconds; and after six minutes, for 4 minutes and 5 seconds. The effect of the forced breathing appears to be a freeing of the blood and body tissues from considerable carbon dioxide. It proves to be undesirable, however, to continue the forced breathing more than two or three minutes, for if it is prolonged the muscles of the hands become rigid, and remain completely paralyzed for a minute or two after holding the breath begins. In actual practice, the pearl divers of Ceylon take only a few deep breaths before descending.

The trackless land is as difficult to travel without a compass as the trackless sea. The chief engineer of the Honduras National Railway cautions engineers to take special precautions against being lost, as in the tropical forest one speedily becomes bewildered, and without a compass there is absolutely no way of determining direction. The sun is always invisible, except possibly when directly overhead. There is no moss on the trees to serve as a guide, and any neighboring elevations are hidden by the density of the foliage. It is further pointed out that there are sunny plains where also the compass is much needed. On the treeless

plains of South America, with no hills in sight, the sun indicates direction when it is near rising and setting, but at midday it gives no clue, as it is directly overhead, so that a man covers his own shadow.

The storage of power in the form of hydrogen and oxygen gases is the novel idea of M. Pirandello, an Italian engineer. On the coast near Rimini he is testing an apparatus for generating electricity by wave power, and the current produced is used not only for lighting but for decomposing water into its constituent gases. The oxygen and hydrogen, collected in suitable receivers, are compressed in steel cylinders in the usual way, to serve for heat, light, power or other purpose, as required.

HELPFUL WORDS

From a Jackson Citizen

Is your back lame and painful? Does it ache especially after exertion? Is there a soreness in the kidney region? These symptoms indicate weak kidneys. There is danger in delay. Weak kidneys fast get weaker. Give your trouble prompt attention. Doan's Kidney Pills act quickly. They strengthen weak kidneys. Read this Jackson testimony.

Mrs. C. Williams, Pitt St., Jackson, Cal., says: "I have used Doan's Kidney Pills and am glad to say that they live up to representations. I was in a bad way as the result of kidney trouble. Doan's Kidney Pills were brought to my attention and I procured a box at the City Pharmacy. My kidneys are now normal and I feel better in every way."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Pioneer flour is the best; have no other.

DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or over-busy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better, because of the wrong treatment, but probably worse. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," run-down, debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve tonic "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency. Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

For a mild, easy action of the bowels, a single dose of Doan's Regulators is enough. Treatment cures habitual constipation. 25 cents a box. Ask your druggist for them.

Now Is The Time

to make up your mind to have that "Photo" taken. Don't put it off any longer—you'll never be any younger or look any better than you do right now. Call at Logan's 15 S. San Joaquin Street, the next time you are in Stockton, and let him fix you up. Then you can agreeably surprise your friends by giving them a likeness of yourself. Best workmanship—lowest cost.

Born in Iowa.

Our family were all born and raised in Iowa, and have used Chamberlain's Colic, cholera and diarrhoea remedy (made at Des Moines) for years. We know how good it is from long experience in the use of it. In fact, when in El Paso, Texas, the writer's life was saved by the prompt use of this remedy. We are now engaged in the mercantile business at Narcoossee, Fla., and have introduced the remedy here. It has proven very successful and is constantly growing in favor.—Eanis Bros. This remedy is for sale by Jackson Drug Store, Spagnoli, prop.

FRIDAY.....JUNE 11, 1909

BIG BAR BRIDGE MATTER.

The contemplated purchase of Big Bar toll bridge by the supervisors of Calaveras and Amador counties jointly is badly tangled. A very serious question has arisen concerning the legal right of the supervisors to apply any county funds to the purchase of this bridge. It is probable that a law suit, involving an appeal to the highest court will be necessary before the matter can be definitely settled. It appears that the franchise to construct this road and collect tolls, was granted by the legislature in the early sixties. The franchise ran for thirty years. It expired before 1898. In that year an application was made for a renewal of the franchise. The bridge had become delapidated and dangerous to travelers. Accidents occurred owing to its poor condition. The owner was unwilling to put it in repair, without a renewal of franchise to collect toll, and the counties were not prepared to take over the bridge and keep the same in repair. So a franchise was allowed extending for a period of another thirty years. This franchise was thereafter a matter of litigation in the superior court of Calaveras county. The legality of the action of the supervisors in granting the franchise was sustained by the court. It was allowed to rest there; no appeal to the supreme court was taken. Under the extension of the franchise thus granted tolls have been collected ever since.

The validity of this franchise is now in doubt, and also whether the supervisors have any right to appropriate money for the purchase of the bridge. The district attorney of each county interested has expressed an opinion to the effect that the purchase can be made, after proper appraisal. Other members of the legal profession claim otherwise. The provisions of the codes bearing on the subject are as follows:

Whenever the franchise for any toll-bridge, trail, turnpike, plank or common wagon has expired by limitation or non-user, such bridge, trail, turnpike, plank or common wagon road becomes a free public highway; and no claim shall be valid against the public for right of way, or for the land or material comprising such bridge, trail, turnpike, plank or common wagon road. All public highways, once established, shall continue to be public highways until abandoned by order of the Board of Supervisors of the county in which they are situated, or by operation of law, or judgment of a court of competent jurisdiction.

At any time within five years from filing the certificate of completion of any road constructed under the provisions of this chapter, the county within which the road, or any portion thereof, is located, may purchase the same at a fair cash valuation, to be fixed by seven Commissioners, all disinterested persons, three to be appointed by the Board of Supervisors of the county, three by the owner of the road, and the seventh by the Judge of the Superior Court of the county.

The supervisors seem inclined to purchase, if they can do so under the law, without making themselves liable on their official bonds. The bridge and approaches are worth the amount proposed to be paid, \$8000. It is in good repair, and the traveling public will be money ahead at the expiration of the franchise, which has 19 years yet to run, that is assuming it to be a valid one.

Charles H. Turner, the convicted defaulting secretary of the grand parlor of N. S. G. W., is reported to have remarked, when face to face with punishment for his crime, "That's what one gets for being a good fellow." Evidently the flippant remark was intended to extenuate his offense. He spent the funds intrusted to him in entertaining his friends, in whose estimation he was no doubt held to be a jolly good fellow. It would have reflected far more credit upon the defaulter had he manifested contrition for having taken the first step in the criminal path, instead of boasting that he had made himself a "good fellow" by the use of funds not his own; thereby tacitly encouraging others to follow the same thorny road. The crown of social martyrdom does not belong to deeds such as his. The downfall of the ex-secretary is in accordance with the inexorable moral law, perhaps not in every instance vindicated in civil law: "Whatsoever a man soweth, that shall he also reap."

Sore Nipples

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by Jackson Drug Store, Spagnoli Prop.

A Wreck

is the only fit description for the man or woman who is crippled with rheumatism. Just a few rheumatic twinges may be the forerunner of a severe attack—stop the trouble at the start with Ballard's Snow Liniment. Cures the rheumatism and all pains. Price 25c, 50c and \$1. Sold by Rubner's City Pharmacy.

Women Who are Envid

Those attractive women who are lovely in face, form and temper are the envy of many, who might be like them. A weak, sickly woman will be nervous and irritable. Constipation or kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. For all such, Electric Bitters work wonders. They regulate stomach, liver and kidneys, purify the blood; give strong nerves, bright eyes pure breath, smooth, velvety skin, lovely complexion. Many charming women owe their health and beauty to them. 50c at Spagnoli's Drug Store.

C. H. Turner Goes to San Quentin.

Chas. H. Turner, the defaulting secretary of the grand parlor of N. S. G. W., was taken to San Quentin on Tuesday last, to serve out a sentence of three years for embezzling the funds of the order. He pleaded guilty to the charge, and asked to be sentenced forthwith. His only explanation of the misappropriation of the money was that he had spent it in entertaining his friends. Senator Caminetti, his brother-in-law, and his attorney, accompanied him to the prison. He was placed to work in the jute mill. With full credit for good behavior, he will be out in two years and four months.

Do Your Clothes Fit?

Watch the men as they walk along the street, some catch your attention, some don't. It's all the way a suit fits. A well fitted garment always attracts attention. It isn't easy to fit a man, because most men are built differently. It takes skill to do it. When men's clothes don't fit the idea is conveyed that somebody is trying to save money in the wrong place. My clothes fit in every sense of the word. Talent is modied in every line. There is smartness, elegance and grace in every movement. A good suit is always an investment, not an expense. Try Wm. Ross, the tailor. Formerly Max Ladar's, Jackson, Cal.

Trouble Makers Ousted

When a sufferer from stomach trouble takes Dr. King's New Life Pills he's mighty glad to see his dyspepsia and indigestion fly, but more he's tickled over his new, fine appetite, strong nerves healthy vigor, all because stomach, liver and kidneys now work right. 25c at Spagnoli's Drug Store.

Fingers Cut Off.

A miner, commonly known as Austrian Pete, was the victim of a painful and severe accident during Wednesday night, while employed in the Kennedy mine. The ore car got off the track in some unexplained manner. Pete's left hand was caught between the car and a projecting rock or timber, resulting in the amputation of two fingers—second and third—as neatly as though done with a surgeon's knife. Dr. Gall has charge of the case. It will be several weeks before the patient will be able to return to work.

A Thrilling Rescue

How Bert R. Lean, of Cheny, Wash., was saved from a frightful death is a story to thrill the world. "A had cold," he writes, "brought on a desperate lung trouble that baffled an expert doctor here. Then I paid \$10 to \$15 a visit to a lung specialist in Spokane, who did not help me. Then I went to California, but without benefit. At last I used Dr. King's New Discovery, which completely cured me and now I am as well as ever." For lung trouble, bronchitis, coughs and colds, asthma, croup and whooping cough its supreme. 50c and \$1. Trial bottle free. Guaranteed by Spanoli's Drug Store.

Unclaimed Letters.

Stomach Troubles

Many remarkable cures of stomach troubles have been effected by Chamberlain's Stomach and Liver Tablets. One man who had spent over two thousand dollars for medicine and treatment was cured by a few boxes of these tablets. Price, 25 cents. Samples free at Jackson drug store.

Conference Over Big Bar Bridge.

The supervisors of Amador county went over to San Andreas Tuesday to meet the supervisors of Calaveras county on the Big Bar bridge question. It was thought that the meeting place would be at the bridge, but the Amador delegation went the entire distance to San Andreas. The meeting was to appoint appraisers to appraise the value of the bridge, three by the supervisors of each county, and one by the judge of the superior court of Calaveras. The appraisers, we are informed, were selected as follows: C. L. Culbert, V. S. Garbarini, P. Cassinelli, Henry Marre all of Jackson; H. Schrag of Mokelumne Hill, and Ed. Casey of San Andreas. They will report to the supervisors next meeting.

Over \$5000 in Prizes Given Away

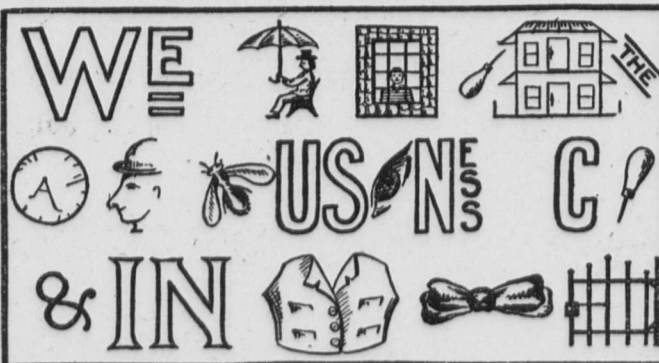

To those sending neatest correct Answers.

Do You Want a Piano? Do You Want a Sewing Machine? If so, Enter This Contest.

We have again interested the piano manufacturers of whom we purchase pianos to allow us the amount used in a city of this size for advertising purposes, and the following will be interesting to our many friends in Stockton and surrounding towns. The manufacturers will have a representative in this city within a few days to take charge of this contest.

CAN YOU SOLVE IT?

Answer to the best of your ability whether correct or not. The nearer the correct answer the greater the prize. Everybody that answers will share in the \$5000 cash value distribution.

- 1st Prize—\$75.00 violin and \$200 credit certificate, good on any new piano in our store.
- 2nd Prize—\$75.00 violin and \$200 credit certificate.
- 3rd Prize—Drophead Sewing Machine and credit certificate for \$150.
- 4th Prize—Drophead Sewing Machine and credit certificate for \$150.
- 5th Prize—\$40.00 Guitar and credit certificate for \$140.
- 6th Prize—\$40.00 Guitar and credit certificate for \$140.
- 7th Prize—\$40.00 Talking Machine and 12 Records and credit certificate for \$140.00.

The first, third fifth and seventh prizes will be given to contestants outside of Stockton. Other cash value prizes to value of over \$5000 will be given away to contestants.

CONDITIONS.

Only one in a family and no employee of this or any other music store will be eligible as contestants.

The contestants must agree to abide by the decision of the judges. The representatives of the Stockton papers will be judges of the contest.

If no one sends a correct answer, the prize will be awarded to the nearest correct. If more than one correct answer is sent in, nearest will be considered in making the awards. Every contestant will be rewarded. Contest closes 6 p. m. June 15th. Send answer, name and correct address to

McNEIL & COMPANY, Elks' Building, Desk No. 40, Stockton.
